

Summit Named Finalist for Outstanding Incubator Client

Akron, Ohio, April 8, 2010 – For the second time in three years, the National Business Incubation Association has selected Summit Data Communications as a finalist for Outstanding Incubator Client in the Technology Category. The winner of the prestigious award will be announced May 18 at NBIA’s International Conference on Business Incubation in Orlando, Florida.

The 7,000 business incubators operating around the world provide entrepreneurs and young companies with the expertise, networks, and tools they need to make their ventures successful. The NBIA advances business incubation and entrepreneurship. Each year, the NBIA Incubation Awards honor business incubation programs and client companies that exemplify the best of the industry.

Summit, which provides industrial-strength embedded Wi-Fi[®] solutions for business-critical mobile devices, is a client of the Akron Global Business Accelerator in Akron, Ohio, which won the NBIA’s Incubator Innovation Award in 2008. For four years, the Akron incubator’s mentoring and business assistance have helped Summit establish and maintain a healthy business.

“We are honored to be named a finalist for Outstanding Incubator Client,” said Andy Winson, Summit’s VP of Operations. “With help from the Akron Global Business Accelerator, we have built a strong international business that has weathered the global recession and is poised for significant growth.”

About Summit

Summit Data Communications, Inc. is the *mobile* in today's mobile computers and other business-critical mobile devices. Summit's embedded Wi-Fi solutions provide secure, reliable connections in the challenging environments in which business-critical mobile devices operate, including factories, warehouses, ports, hospitals, and retail stores.
