WAV Recognizes Summit Data for Five Years of Partnership

Aurora, IL- November 29, 2011 – WAV, Inc., the full-service, value added distributor of wireless broadband and MESH, networking and WLAN, mobile and rugged computing, data collection, RFID and printers and physical security solutions, has announced its recognition of Summit Data, a a provider of industrial-grade and medical-grade wireless modules, for dedication and superior service the past five years.

Summit's rugged Wi-Fi products provide secure and reliable wireless connectivity for devices such as data collection terminals and medical equipment that operate in challenging environments such as factories, warehouses, and hospitals. Summit's hardware maximizes the RF range, supports an extended operating temperature range, and minimizes power consumption. Summit's software ensures solid security, reliable connectivity, fast roaming, and easy administration of dozens or hundreds of devices.

 "WAV is proud to be aligned with Summit Data for five years," said Norm Dumbroff, president and CEO of WAV, Inc. "In this industry, it pays to know and grow with our vendors through the test of time. Our dedication to Summit Data, and their dedication to us, allows us to provide reliable technical and engineering support and services, ever increasing the value added to Solution Providers."

WAV has one of the largest stocking positions throughout North America for wireless products and solutions. Manufacturers are carefully considered for their high quality solutions and complementary qualities to other existing WAV product lines - offering ISV, Solution Provider and Reseller's customers not just one wireless solution, but a variety of complementary technologies that will maximize project capabilities and bottom line.

WAV carries a line of more than 50 manufacturers, and provides a variety of value added services surrounding these product lines which include pre-sale and post-sale technical support, site surveys and installations, demo programs, leasing, maintenance contracts, and repair services.
